

Section: 1000.4 Mission	Subject: Strategic Planning
Effective Date: 10/13/2004	
Effective Date: 08/20/2020	Approved By: Board of Directors

Purpose:

To establish the need for a strategic plan for the network and set forth those who are responsible for developing the strategic plan.

Policy:

Gorman Learning Charter Network should annually develop a strategic plan that aids the network in moving forward towards accomplishing its decided goals and focus for the network as a whole. The Strategic Plan for the school is developed by the Board of Directors in collaboration with the Executive Director and other administrative staff and should be guided by the fundamental principles of the GLCN. Regular reporting and/ or updates towards achievement of the goals set forth in the strategic plan should be presented to the Board at regularly scheduled Board meetings.

An annual Board meeting focused on strategic planning should be incorporated into the annual Board calendar, with the current serving Board determining which of the regularly scheduled Board meetings to host the strategic planning meeting.

All strategic plans and goals set by the Board of Directors should focus on aiding the network in adopting long-term goals for achieving the school's overall vision as well as meeting clear performance standards and benchmarks.
